SUMMARY

developer with hands-on experience as an intern at Infosys Springboard, skilled in the MERN (Mongo DB, Express, React, NodeJS) stack Angular and Spring Boot. Dedicated to building dynamic and interactive web applications, I have built many web applications leveraging my knowledge of developing robust backend services with NodeJs and SpringBoot and creating responsive user interfaces using React and Angular. Knowledgeable in WebSocket for real-time communication features. Actively engaged as a campus ambassador for GeeksforGeeks, where I promote technical learning, facilitate coding events, and collaborate within the tech community. Known for bringing innovative ideas to projects and consistently delivering high-quality solutions.

PROJECTS :

- **Online GoFish Card Game With WebRTC Video Call (WebSocket and WebRTC)**
 - **Tech Stack** - Typescript, Express, MongoDB, WebSocket, React, JavaScript
 - **Github Link** - <https://github.com/Sohankalburgi/GoFishGame-WebRTC>
 - Website for having Real Time Face to Face connection and having the virtual gameplay of Go-Fish Card Game.
- **Campground Website**
 - **Tech Stack** - MongoDB, NodeJS, Express, EJS, MapTiler API
 - **Github Link** - <https://github.com/Sohankalburgi/Web-Development/tree/main/PROJECT>
 - Website to host the availability of Campgrounds with the images ,reviews and location in Map Tiler (Google Maps)
- **ChatApplication (WebSocket)**
 - **Tech Stack** - Typescript, Express, Web Socket, React
 - **Github Link** - <https://github.com/Sohankalburgi/ChatWebAPP>
 - Website for the Real time chat-based communication with many users using WebSocket.
- **Online Recruitment (Internship Project)**
 - **Tech Stack** - Angular, Spring Boot, SQL
 - This was created under the Infosys Springboard Internship. it was a role-based website where graduates apply for jobs posted by employers and the admin has the monitoring control on overall website data. it includes features such as email service, notification service, resume upload for each of the job application. Admin management system, custom required search options.
- **Other Learning Projects**
 - Anime - Character Storing in Database using Spring JPA
 - Movie Rating Website - Web-Based using Thymeleaf and Spring boot
 - Banking Project - Web-Based using Thymeleaf and Spring boot
 - Razorpay API Integration Web based
- **Udemy Clone**
 - **Tech Stack** - Angular, Spring boot, SQL, Cloudinary API
 - **Github Link** - <https://github.com/Sohankalburgi/Webathon-elearning>
 - Store the Video in Cloud using Cloudinary API and Dashboard for knowing the Course status (Completion) for the student.
- **VTU Fest Website (Ongoing Project)**
 - Tech Stack - NextJs , Typescript, PostgreSQL, UploadThing, Vercel , React, Prisma

EDUCATION

Bachelor of Engineering in Information Science Engineering
Global Academy of Technology, Bangalore, Karnataka

2022 - 2026

CERTIFICATIONS

Java, DSA, System Design 2.0 - PW Skills
SQL(Structured Query Language) - HackerRank
Web Development BootCamp 2024 - Udemy (Course Instructor - Colt Steele)

EXPERIENCE

Geeks For Geeks - Campus Mantri

April 2024 - Present

Gained experience in communication, leadership, marketing, collaborating, organizing events, and ranked among the top 2 performers, won the premium membership for top 15 rank among 115 ambassdor

Infosys Springboard Intern - Full Stack Java Developer

March 2024 - Jun 2024

Gained Experience in leadership as team and improved my skills on web development used angular, Spring boot and MySQL for developing the online recruitment website, design the Database Schema for the website.

SKILLS AND ACHIEVEMENTS

- **Skills:** HTML, CSS, Python, SQL, React, MongoDB, NodeJS, Express, NextJs, Framer Motion, PostgreSQL, Spring Boot, Angular, Java, Javascript, Typescript, GitHub, Adobe Premiere Pro, Object Oriented Programming, Communication, Leadership.
- **Languages:** English, Kannada, Hindi, SSK Marathi
- **Awards/Activities:** Geeks For Geeks Institute Rank 7, PW Code Conquest Rank 519 among 3000 participants, 3rd Prize in **Bro Code** Contest hosted at my College, Top 2nd in the GeeksforGeeks Top Voice for the Marketing Challenge, Top Performers, Golden Badge in Java, SQL, Problem Solving in Hacker Rank, Having 500+ Connections on LinkedIn.
